36. SUPPLEMENTAL STATISTICS FOR OUTLYING TERRITORIES AND POSSESSIONS

General Note.—The Sixteenth Census figures for the population of Alaska and Puerto Rico, and for manufactures in Alaska and Hawaii, as given in this section, are preliminary and subject to revision. Population statistics for Alaska, Hawaii, and Puerto Rico, comparable with those appearing in tables 912 to 915, and manufactures statistics for Puerto Rico, comparable with those for Alaska and Hawaii in tables 916 and 917, will be included in the 1941 edition of the Abstract. That edition will also include summary statistics for agriculture and business, for Alaska, Hawaii, and Puerto Rico, and for agriculture for Virgin Islands.

No. 916.—Alaska—Manufactures, by Industries: 1899 to 1939

Note.—The figures for 1939 do not include data for plants reporting products valued at less than \$2,000; those for earlier years cover all plants having products valued at \$500 or more. This increase in the minimum value-of-products limit resulted in some reduction in the "Number of establishments" reported, as compared with what it would have been had the minimum of \$500 been retained, but did not seriously impair the comparableness of the figures for 1939 with those for earlier years

Note.—The figures for 1939 do not include data for plants reporting products valued at less than \$2,000; those for earlier years cover all plants having products valued at \$500 or more. This increase in the minimum value-of-products limit resulted in some reduction in the "Number of establishments" reported, as compared with what it would have been had the minimum of \$500 been retained, but did not seriously impair the comparableness of the figures for 1939 with those for earlier years. Comparable figures for earlier years are given for all industries for which such figures are available
